### Kapitel 8: Need You

Since the day I've met you  
I've found all, what I need...

When I need motivation  
You light up my soul  
When I need comfort  
You wipe away my tears

Oh I need you  
Cause you are my power  
I wanna give you this power too  
Just call me  
And I will do all I can

When I need tenderness  
You stroke my face  
When I need safety  
You take me in your arms

Oh I need you  
Cause you are my power  
I wanna give you this power too  
Just call me  
And I will do all I can

"...If I need love...  
...You are here..."
